C3 COLORECTAL® CANCER COALITION

Research ■ Policy ■ Awareness

We, the undersigned support three bills in Congress that, if passed, will provide coverage of nearly every butt in America that should be screened: those belonging to the poor and underserved, the elderly and those with private insurance.

- ***HR 1738: The Colorectal Cancer Prevention, Early Detection, and Treatment Act*** will establish a program at the Centers for Disease Control and Prevention (CDC) to provide colorectal cancer screenings and treatment for low-income, uninsured and underinsured individuals who are not eligible for Medicare.
- ***HR 1926/S 1164: The Colon Cancer Screen for Life Act*** will expand existing Medicare coverage of colorectal cancer screening to include pre-procedure visits and other reimbursements, minimizing the out-of-pocket expenses for our nation's elderly.
- ***HR 3060: The Colorectal Cancer Screening and Detection Coverage Act*** would require private health insurance plans to provide coverage for colorectal cancer. Plus, the bill will protect anyone from being denied a policy due to their need for colorectal cancer screening.

Please return petitions to C3: Colorectal Cancer Coalition, C/O Joe Arite, 1225 King Street, 2nd Floor, Alexandria, VA 22314 or fax to 202-315-3871.
