

Ethan Basch, MD, MSc, is a practicing medical oncologist and health services researcher at Memorial Sloan-Kettering Cancer Center, with appointments in the Department of Medicine and in the Department of Epidemiology and Biostatistics. His research focuses on methods to use patient-reported data to evaluate the comparative effectiveness and safety of interventions. Dr. Basch is chair of the Health Outcomes Committee of the Cancer and Leukemia Group B of the National Cancer Institute (NCI), chair of the Clinical Practice Guidelines Committee of the American Society of Clinical Oncology (ASCO), and a member of ASCO's Comparative Effectiveness Task Force. He leads the NCI's PRO-CTCAE initiative to develop a standard system for patient-reporting of safety data in clinical trials. Dr. Basch received a BA from Brown University, an MD from Harvard Medical School, an MSc in epidemiology from Harvard School of Public Health, and an MPhil in literature from Oxford University.
