

## October 20, 2022

The Honorable Patty Murray Chair Senate Appropriations Subcommittee on Labor, Health and Human Services, Education, and Related Agencies Washington, DC 20510

The Honorable Roy Blunt
Ranking Member
Senate Appropriations Subcommittee on
Labor, Health and Human Services, Education,
and Related Agencies
Washington, DC 20510

The Honorable Rosa DeLauro
Chair
House Appropriations Committee & Subcommittee on
Labor, Health and Human Services, Education,
and Related Agencies
Washington, DC 20510

The Honorable Tom Cole
Ranking Member
House Appropriations Subcommittee on
Labor, Health and Human Services, Education
and Related Agencies
Washington, DC 20510

Dear Chair DeLauro, Chair Murray, Ranking Member Cole and Ranking Member Blunt:

Thank you for your ongoing bipartisan, bicameral, and steadfast leadership in support of cancer research and prevention programs. As members of One Voice Against Cancer (OVAC), a broad coalition of public interest groups representing millions of cancer patients, researchers, providers, survivors, and their families, we urge you to prioritize funding for cancer research and prevention during your negotiations over the Fiscal Year 2023 Labor, Health and Human Services, and Education Appropriations bill.

## **OVAC Requests for the National Cancer Institute and National Institutes of Health**

**NCI:** \$7.766 billion, the amount recommended by NCI in its FY 2023 professional judgment budget, or at least the House Appropriations Committee-passed bill level of \$7.379 billion.

NIH: \$49.048 billion, or at least the House Committee - passed bill level of \$47.459 billion.

Thanks to the subcommittees you lead, Congress has increased funding for NIH by \$14.9 billion over the past seven years. We are especially grateful that you have dedicated funding to address the precipitous decline in the success rate for Research Project Grant applications at NCI.

As you know, the NCI is experiencing a demand for research funding that is far beyond that of any other Institute or Center (IC). This demand for NCI funding reflects the extraordinary progress that is being made in many areas of cancer research, the lack of progress for some cancers, and the potential for new breakthroughs. We urge you to take these factors into account when allocating NIH funding.

OVAC supports the creation of the Advanced Research Projects Agency for Health (ARPA-H) and has provided recommendations for its design and implementation. Funding for the new agency should not prevent robust increases for the NCI and other core NIH research programs.

## OVAC Requests for the Centers for Disease Control and Prevention

**Division of Cancer Prevention and Control (DCPC): \$462.6- million**. About half of the over 600,000 cancer deaths that will occur this year could be averted through the application of existing cancer control interventions. Unfortunately, in sharp contrast to funding for the NIH, federal funding for CDC cancer programs has remained almost flat for many years.

Between FY 2010 and FY 2022, funding for the DCPC increased by just \$19.4 million, or 4.9 percent, from \$389.3 million to \$389.8 million. The DCPC provides key resources to states and communities to prevent cancer by ensuring that at-risk, low-income communities have access to vital cancer prevention programs. However, information about the benefits of early education and access to potentially lifesaving screenings is not always equitable, creating significant disparities in cancer outcomes.

The consequence of such disparities is that cancer is more often diagnosed at later stages when options for treatment may be limited and the odds for survival are lower.

Below please find OVAC's requests for key programs within the DCPC:

- National Comprehensive Cancer Control Program: \$30.2 million
- National Program of Cancer Registries: \$61.4 million
- National Breast and Cervical Cancer Early Detection Program: \$258 million overall, \$225 million not counting Wisewoman
- Colorectal Cancer Control Program: \$50 million
- National Skin Cancer Prevention Education Program: \$5 million
- Prostate Cancer Awareness Campaign: \$20 million
- Ovarian Cancer Control Initiative: \$15 million
- Gynecologic Cancer and Education and Awareness (Johanna's Law): \$15 million
- Cancer Survivorship Resource Center: *\$1 million*
- Breast Cancer for Young Woman: *\$7 million*

If you have questions, please contact Tammy Boyd, VP of Federal Advocacy and Strategic Alliances of the American Cancer Society Cancer Action Network, at <a href="mailto:Tammy.Boyd@cancer.org">Tammy.Boyd@cancer.org</a> Once again, thank you for your continued leadership on funding issues important in the fight against cancer.
