EARLY DETECTION THROUGH TIMELY SCREENING CAN PREVENT COLORECTAL CANCER

67.30% OF CALIFORNIANS ARE
UP-TO-DATE WITH COLORECTAL SCREENING.**

WHAT'S CALIFORNIA DOING ABOUT COLORECTAL CANCER? In October 2021, Governor Gavin Newsom signed a bill into law to remove out of pocket costs for Californians needing a colonoscopy after an abnormal non-invasive screening test. Californians gained coverage for the full spectrum of colorectal cancer screening, including the necessary colonoscopy following an abnormal non-invasive screening test.

In addition, Fight CRC Catalyst grantees in California successfully worked to get colorectal cancer screening added as a quality measure for the Centers for Medicaid and Medicare Services (CMS) Adult Core Set. This means that more states will now measure colorectal cancer screening rates in their Medicaid program. This is important because as the saying goes, "what gets measured, gets improved."

WHAT'S DOING ABOUT COLORECTAL CANCER? In 2021, Kentucky became the first state to adopt a pharmacy protocol that allows pharmacists to provide colorectal cancer education, and when appropriate, initiate non-invasive colorectal cancer screening. This means some patients could be taking care of their colorectal cancer screening at their local CVS, Walgreens, or independent pharmacy—the same place they go for a flu shot or regular prescriptions.

Catalyst grantees in Kentucky also successfully worked to codify access to colorectal cancer screening and genetic testing in Kentucky's Medicaid program.

EARLY DETECTION THROUGH TIMELY SCREENING CAN PREVENT COLORECTAL CANCER

74.50% OF NEW YORKERS ARE
UP-TO-DATE WITH COLORECTAL SCREENING.**

WHAT'S NEW YORK DOING ABOUT COLORECTAL CANCER? In December 2022, Governor Kathy Hochul signed into law a bill to help ensure colorectal cancer screening coverage for New Yorkers at average-risk starting at age 45, and ensure that state regulated insurance plans cover, with no cost-sharing, follow-up colonoscopies after an abnormal non-invasive stool test.

 **EARLY DETECTION THROUGH TIMELY SCREENING CAN PREVENT COLORECTAL CANCER** 

79.50% OF RHODE ISLANDERS** ARE UP-TO-DATE WITH COLORECTAL SCREENING.

WHAT'S RHODE ISLAND DOING ABOUT COLORECTAL CANCER? In April 2021, Governor Dan McKee signed into law the "Maryellen Goodwin Colorectal Cancer Screening Act." This legislation will help increase access to colorectal cancer screening by removing out-of-pocket costs for patients needing a colonoscopy following an abnormal noninvasive screening test. Maryellen Goodwin is a long-time member of the Rhode Island State Legislature and champion for access to healthcare. She passed away from colorectal cancer in April 2023.
