

COLORECTAL CANCER'S IMPACT ON: ALASKA

This year in **Alaska alone**, there will be an estimated*:

340

**NEW COLORECTAL
CANCER CASES**

90

**COLORECTAL
CANCER DEATHS**

67.7%

**OF ALASKA RESIDENTS ARE UP-TO-DATE
WITH COLORECTAL SCREENING**.**

Does Alaska benefit from a CDC supported colorectal cancer screening program?

**YES, BUT ALASKA'S CDC COLORECTAL CANCER CONTROL PROGRAM
LOST OVER \$200,000 IN FEDERAL FUNDING IN 2025.**

In 2020, the cost of colorectal cancer care was **\$24.3 billion**, which was about **11.6% of the \$208.9 billion total cost** to treat cancer in the U.S.*** Getting more residents screened on time for colorectal cancer could significantly reduce CRC treatment costs through prevention and early detection.
