

COLORECTAL CANCER'S IMPACT ON: MISSOURI

This year in **Missouri alone**, there will be an estimated*:

3,200

NEW COLORECTAL
CANCER CASES

1,280

COLORECTAL
CANCER DEATHS

71.6%

OF MISSOURI RESIDENTS ARE UP-TO-DATE
WITH COLORECTAL SCREENING**.

Does Missouri benefit from a CDC supported colorectal cancer screening program?

NO, MISSOURI IS ONE OF FOUR STATES THAT LOST ALL FUNDING FOR ITS CDC COLORECTAL CANCER CONTROL PROGRAM IN 2025.

In 2020, the cost of colorectal cancer care was **\$24.3 billion**, which was about **11.6% of the \$208.9 billion total cost** to treat cancer in the U.S.*** Getting more residents screened on time for colorectal cancer could significantly reduce CRC treatment costs through prevention and early detection.
